📄 Summary

Senior Frontend Developer with 10+ years of experience **owning and evolving frontend platform and UI architecture** for complex SaaS products. Proven track record of **leading frontend engineers**, defining shared standards, and building scalable microfrontend systems that support long-lived, business-critical applications. Strong focus on maintainability, cross-team impact, and product-driven technical decisions.

🧠 Core Expertise

Frontend Platforms & Architecture — Microfrontends (Single-SPA), Nx Monorepos, Design Systems, Shared UI Libraries, State Management (RxJS, NgRx), Scalable SPA Architecture

Frameworks & Languages — TypeScript, JavaScript (ES6+), Angular, React, HTML, CSS

Testing & Tooling — Jest, Jasmine, ESLint, Docker, CI/CD

Backend — Node.js, NestJS, REST APIs, PostgreSQL, Java (Spring)

Collaboration & Delivery — GitHub, GitLab, Jira, Confluence, Figma

👛 Experience

Senior Frontend Developer & Team Lead, 1touch.io — Data Privacy & Security SaaS  02/2018 – Present | USA

- **Owned frontend platform architecture** across a portfolio of Angular-based SaaS products, **establishing standards and patterns adopted across teams** for shared libraries and microfrontend composition (Nx, Single-SPA).
- **Led and mentored the frontend team**, providing technical direction, architectural guidance, and code-quality standards.
- Drove the evolution of **long-lived applications** that supported core business workflows and continued to scale over multiple years.
- Designed and maintained shared UI and utility libraries consumed by multiple teams, improving consistency and long-term maintainability.
- Acted as a **technical partner to product and design**, translating complex data-privacy and compliance requirements into clear, usable interfaces.
- Built a **reusable demo environment** used by sales and pre-sales teams to support customer evaluations and proof-of-concept cycles.

Frontend Developer, Amdocs — Enterprise Telecom Software  02/2016 – 01/2018 | Israel

- Developed frontend features for a **large-scale enterprise e-commerce platform** supporting mission-critical workflows.
- Built responsive, data-driven UIs integrated with Java (Spring) backend services.
- Collaborated with distributed Agile teams delivering high-reliability software.

Web Developer, Wild Solutions — Digital Agency  10/2014 – 11/2015 | Israel

- Built responsive marketing websites and landing pages from design mockups.

🎓 Education

Bachelor's Degree in Computer Science, Sapir College 10/2012 – 06/2015 | Israel
