📁 Professional Experience

Senior Frontend Developer & Team Lead, 1touch.io

02/2018 – Present | USA

Data-security startup delivering automated data discovery and privacy intelligence.

- Drove frontend architecture and hands-on development of scalable Angular applications using TypeScript across multiple customer-facing products.
- Improved application performance and long-term maintainability through strong component design and shared libraries used across multiple teams.
- Collaborated closely with product managers and designers to deliver intuitive, high-quality user experiences used by internal and external stakeholders.
- Mentored frontend developers through code reviews, technical guidance, and best practices.
- Delivered a reusable demo environment adopted by sales and pre-sales teams, accelerating client evaluations and proof of concept.

Frontend Developer, Amdocs

02/2016 – 01/2018 | Israel

Global enterprise software provider specializing in telecom and digital solutions.

- Built and maintained frontend features for a large-scale enterprise e-commerce platform supporting mission-critical workflows.
- Developed responsive, data-driven UIs and integrated them with Java-based backend services.
- Collaborated with distributed Agile teams to deliver new features and enhancements.

Web Developer, Wild Solutions

10/2014 – 11/2015 | Israel

Boutique digital agency focused on custom websites and landing pages.

- Built responsive websites and landing pages using HTML, CSS, and JavaScript.
- Translated design mockups into clean, cross-browser compatible interfaces.

🎓 Education

Bachelor's Degree in Computer Science, Sapir College

10/2012 – 06/2015 | Israel

★ Military Service

Tank Commander - Sergeant First Class, Armored Corps (IDF)

03/2006 – 03/2009 | Israel

Led and trained a tank crew in high-pressure environments, responsible for mission readiness and team safety.
